You need to create three types users

- 1. Admin: create and removed by admin (at first will be only one)**
- 2. Team member: create and removed by admin**
- 3. User: created by the signup page and removed by admin or him self**

Please follow the first pdf sent to start this project along with other pdfs and this to make things clear to you.

Finally, please ask me if things are not clear, this will make progress faster and clearer, and remove any future confusion.
