

Personal Info

Project Owner: Yazeed Hasan

Email: yazeed.hasan.97@gmail.com

Phone Number: 0798529788

The project idea

Surrounded with many trusted developers whose interested in doing Freelance jobs but with no way to represent them, show their ability to the world, and connect them to customers, Our site manly focus on doing those services for them, it can be thought as it is same as UpWork and Mostaqel, but it is not due to two things.

- 1- The number of developers is limited and Determined and Fully controlled by the admin of the site.
- 2- It is more to represent a single team with its work who works on fully and huge projects instead of just small projects and tasks.

In general; you can say this site is serve as a third-party between the team member add on it (controlled by the admin) and the customers of the site.

The Project Users:

- 1- Admin: Partially Isolated for the system, have full access, ability to modify and change everything in the system.
- 2- Team Members: those are added and removed by the admin only, assigned to project, and add responses to in progress projects they assigned for.
- 3- Customers: those are requested to sign up in order to perform any action in the site than view only, they can contact for project, and add response to in progress projects they own.

The project pages:

It contains 9 Pages:

- 1- Home Page (include sign-in, sign-up panels, and forgot password panel)
- 2- Personal Page (including edit personal page panel)
- 3- Project Page
- 4- Contact us Page
- 5- In progress project page
- 6- Projects Assigned for
- 7- Admin home page
- 8- Admin project queue page (including edit panel)
- 9- Admin project page
- 10- Admin users page

Any user has access to **3 MAIN** pages:

1. Home Page (include sign-in, sign-up panels, and forgot password panel)
2. Personal Page (View Only)
3. Project Page (View Only)

In Addition to the 3 main pages the logged in **Customer** has access to:

1. Its personal page edit panel
2. Contact us Page
3. In progress project page

In Addition to the 3 main pages the **Team Member** has access to:

1. Its personal page edit panel
2. In progress project page
3. Projects Assigned for

In Addition to the 3 main pages the **Admin** has access to:

1. Its personal page edit panel
2. In progress project page
3. Admin home page
4. Admin project queue page (including edit panel)
5. Admin project page
6. Admin users page

Tools used

Database system:

- Database: PostgreSQL
- Database driver: psycopg2
- Database Manager: Dbeaver
- Database Connector within Python: SQLAlchemy

Web development frameworks:

- Backend: Python core and Django
- Frontend: HTML5, CSS3, JavaScript, Bootstrapping, JQuery, ..., etc; and APIs (if needed).
- The application must be fully secured and also uses secure sockets (https)
- ... any other technology (if needed)
- If any other technology used, I must be informed.

Development Flow and Control:

- Design patterns and development techniques must be used.
- The site must be scalable and flexible for changes and modifications.

Features in the site

- Email service:
 - After signing up for user.
 - After adding team member by admin reset password.
 - After user reset password.
 - In account deletion.
 - Filling a contact-us form.
 - After any modification for in progress project the user own
 - After any modification for in progress project the team member assigned to
- Authentication and APIs:
 - For signing up: Facebook, twitter, linked-in, Instagram, and VK.

From the developers

- A one-year warranty must be given.
- Any failure of the system will be totally on the developer, as consequence he/she will work to modify and handle the failure. If the developer couldn't handle the failure, he/she will have to refund for the project owner for the failure.
- Any future small modification (like place of a button, removal of a button, name, color, removal or addition or modification within a page or links ... etc.) are included as free within the price of this project.
- The source code is totally owned by the project owner (Yazeed) and the developer is not allowed to use it or share it anywhere else.
- The source code of the project must be shared with Yazeed day by day using the git version control system and GitHub on a private repository.

Draws of the site by numbers

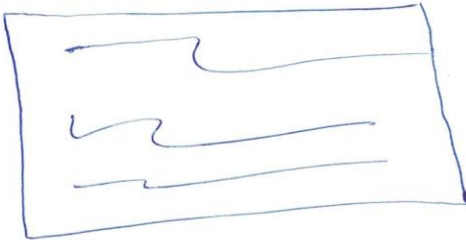

- 1- Home Page
- 2- Login Panel
- 3- Sign Up Panel
- 4- Password recovery panel
- 5- Personal Pages
- 6- Profile edit panel
- 7- Project Page
- 8- Contact us page
- 9- In progress project page
- 10- Assigned Projects page (team member only)
- 11- Admin home page
- 12- Admin Project queue page
- 13- Admin Project queue edit panel
- 14- Admin Project page
- 15- Admin Project page
